

BCEA Awards \$10,000 in Scholarships

Since 1998 the BCEA awards \$10,000 in scholarships every year to dependants of personnel employed at BCEA member companies. This year we are very pleased to showcase the 2006 recipients of a BCEA Scholarship.

Scholarships are awarded to students enrolled in full-time studies at an accredited post-secondary educational institution.

In addition to the BCEA Scholarship Program, the BCEA administers *The Tommy Haddock Memorial Scholarship*. This \$1,000 award is available to students pursuing a career in the electrical industry.

The BCEA also established an endowment fund at the BC Institute of Technology in 1995. Each year two to three bursaries of \$1,000 to \$1,500 are awarded to BCIT students enrolled in a program associated with the electrical industry. This year BCIT students Hui Chen and Mustapha Hassoun were awarded a BCEA bursary.

We congratulate this year's recipients and wish them much success in their studies.

The BCEA has awarded \$91,000 in scholarships since it started in 1998.
